

Moving and Storage Made Easy

We all know that a clean, uncluttered home, sells faster and for a higher price. **PODS** help make de-cluttering easier and more convenient by providing on-site or Storage Center storage—it's your choice. So let's say your house sells quicker than you expected, but you haven't closed on your new home. No problem. Pack at your own pace, then we'll store your valuables in one of our safe and secure Storage Centers, and we'll deliver it when you're ready.

With PODS[®] containers you can:

- Pack at your own pace
- Enjoy an interim storage solution between moves
- Avoid driving a rental truck
- Move across town or across the country

PODS is reinventing moving and storage.
